The applicant is required to make available their Business Plan for our study, this Business Plan.

is given to my team of experts which consists of professionals in the sector of business involved. These professionals run a real analysis on the plan and advise us if the project is profitable to

us, if the location is suitable for investment, if the business idea is viable and, in a nutshell, to tell me if I can finance it or not.

2. Grace Period

I offer a grace period of 1 to 12 months only (where applicable), and there are no pre-payment penalties. This is majorly for start-ups where the borrower needs time to get the business up and running before earning to make loan repayment.

3. Loan Points

Points are a one-time charge that may be negotiated with us, usually to reduce the interest rate you pay over the life of your loan, which is equals to 8%. *1-point equals 1%* of the loan amount. For example, one point on a $100,000 loan would be $1,000. In some cases--especially in refinancing--points can be financed by adding them to the amount that you borrow.

However, if you pay the points at settlement, they are deductible on your income taxes in the year they are paid (different deduction rules apply when you refinance or purchase a second loan). In your purchase offer, you may want to negotiate with us.
Estimated cost: 0-*3%* of the loan amount.
